

The Quik GT Lite

A new permit to fly 2 seat aircraft

The GT Lite is a two seat Permit to Fly microlight with excellent all-round performance. The aircraft combines the popular 13sqm GT450 wing with the smooth performing and quiet Rotax 582 engine making it a true high performance two-seater ideal for touring or training. Incorporating the new vented under surface wing the GT Lite comes with everything you need to go flying including electric start, rear disc brakes, wheel spats and electric trim as standard.
